

# HEMANTH SAI GADE

[hemanthsai0711@gmail.com](mailto:hemanthsai0711@gmail.com) | +91 9848586421 | <https://www.linkedin.com/in/g-hemanth-sai> | <https://github.com/Hemanth0711>

## EDUCATION

**Gokaraju Rangaraju Institute of Engineering and Technology**

*Bachelor of Technology in Electronics and Communication Engineering, CGPA: 8.8*

**Hyderabad, Telangana**

*June 2019 - June 2023*

**Certifications :** [Smart Coder by Smart Interviews](#) , [Machine Learning for beginners](#) , [AWS Cloud Architect](#)

## PROFESSIONAL EXPERIENCE

**Mindset Consulting LLC**

*Associate Developer*

**Bengaluru, Karnataka**

*March 2023 - Present*

- Worked on a SAP based project where the application should automatically generate labels and inputs for the front end view based on the metadata.xml file given.
- Worked on XML, CSS and JavaScript to create list report displays, cross app navigations in SAP BTP.
- Created tables in S4HANA, created APIs, and wrote ABAP and CDS programmes to handle crud operations.

**Suntek Crop Solutions PVT LTD**

*Data Structures & Algorithms Teaching Assistant*

**Hyderabad, Telangana**

*November 2022 - February 2023*

- Assisted over 50 students in understanding object-oriented programming in Java.
- Delivered lectures on data structures & design, such as linked lists, stacks, queues, hash maps, & binary search trees to facilitate a greater comprehension of the topic.
- Skills: Java, OOPS, Data Structures and Algorithms

**GMAT Verzeo**

*Web Development Internship*

**Remote**

*August 2022 - November 2022*

- During this virtual internship, I worked on front-end design, used React for creating components.
- I also worked on APIs and JSON data.
- Skills: HTML, CSS, JavaScript, JSON, React.Js, APIs.

## PROJECTS

**Facial Features Recognition and Spectacles Recommendation Web Application**

- Developed "Facial Features Recognition and Spectacles Recommendation Web Application" using Python, TensorFlow, Flask, HTML, and CSS.
- Trained deep learning model on a large dataset to accurately classify facial features and recommend spectacle frames.
- Built web application with Flask and user-friendly HTML/CSS interface for easy photo uploads and quick recommendations.

**DisasterRecovery Website** | [Live Demo](#) | [Project Link](#)

- I developed a static website to spread awareness about natural disasters and to help the victims.
- I used HTML5, CSS3, and JavaScript to create a user-friendly interface for the website.

**Data Analysis and Representation (Python)** | [Project Link](#)

- Data analysis of tobacco and alcohol consumption over adults using python, pandas.
- Represented the analysis graphically using Scipy and Matplotlib.

## SKILLS

- **Languages:** Java, Python, HTML, CSS, JavaScript, SQL, ABAP
- **Libraries:** React.Js, Node.Js
- **Tools:** Github, Jupyter, PyCharm, Visual Studio Code

## ACHIEVEMENTS

- Scheduled, organized and managed the project expo event of over 200 participants.
- Solved over 1000 DSA problems on the platforms leetcode, codechef, and codeforces.
- Certified Smart Coder by Smart Interviews ( DSA Ed-Tech Platform ).
- 5-Star Coder at hackerrank ( coding platform ).
